[3] This non-GAAP financial measure adjusts certain historical data on a pro forma basis following certain transactions. Please refer to the section of this press release entitled "About Non-GAAP and Pro Forma Financial Measures" for additional information and to the section entitled "Non-GAAP Reconciliations" for reconciliation to the most directly comparable U.S. GAAP measure.

"We are pleased with our results for the first quarter, where we delivered total revenue growth of 2.6%, and Pro Forma Diluted EPS growth of 10.5%; solid results following a strong comparable quarter in the prior year. In addition, our strong cash flow allowed us to prepay $25.0 million of our outstanding term loan" said Bob Cagnazzi, Chief Executive Officer of Presidio. "We are encouraged by our start to the year. The quarter was in line with our expectations, providing us confidence in our ability to achieve our outlook for Fiscal 2019. Furthermore, we are pleased to announce our Board of Directors has declared a quarterly cash dividend of $0.04 per share to be paid in January 2019. We continue to execute against our strategic growth initiatives to deliver strong earnings growth and capitalize on our free cash flow profile to drive shareholder value creation," Cagnazzi continued.

Financial Highlights for the Fiscal First Quarter Ended September 30, 2018

- *Revenue* - Total Revenue was $749.9 million, up 2.6%, with product revenue up 2.5% and service revenue up 3.0%. Revenue growth in the quarter was driven by Digital Infrastructure solutions growth of 7.1%, as we continue to see increased traction for next generation software defined infrastructure with automation and analytics leading to greater client demand for network upgrades. Security revenue increased 4.1% and Cloud revenue decreased 16.2%. Cloud revenue was impacted by the ongoing shift in revenue recognition from a point in time accounting to recognition over the life of the contract with the customer, as our Cloud revenue base continues to migrate to multi-year, recurring revenue contracts. In addition, we lapped a very strong first quarter fiscal 2018 where we achieved 29% growth in Cloud revenue driven by a number of large non-recurring data center modernization projects. The success of our public cloud initiative, as well as strong growth in managed services, drove our recurring revenue up 24% over the prior year, and recurring revenue now represents 5.7% of our Total Revenue.

- *Gross Margin* - Our Gross Margin percentage, Product gross margin percentage, and Service gross margin percentage were 21.2%, 21.6%, and 19.3%, respectively, as compared to 21.4%, 21.6%, and 20.4% in the prior year. Service revenue from vendor partner engagements grew 9%, ahead of total services revenue growth for the first quarter. As these engagements are at a lower margin, they negatively impacted our Service gross margin percentage leading to the overall decline in Gross Margin percentage for the quarter.

- *Provision for Income Taxes* - The GAAP tax provision rate was 26.1%, and the non-GAAP tax provision rate was 21.7%.
- *Net Income and Diluted EPS* - Net Income was $14.7 million and diluted EPS was $0.15. Pro Forma Adjusted Net Income was $36.7 million, an increase of 1.1% over the prior year and Pro Forma Adjusted diluted EPS was $0.42, an increase of 10.5% over the prior year.
- *Adjusted EBITDA* - Adjusted EBITDA was $62.6 million, down 7.4% due to higher Selling, General and Administrative expenses ("SG&A") primarily associated with investments in sales and support personnel, paid for through the benefits of tax reform, and the additional SG&A related to acquisitions completed during the fiscal year ended June 30, 2018. Adjusted EBITDA margin was 8.3% compared to 9.2% in the prior year.

Capital Resources and Free Cash Flow

- *Debt* - As of September 30, 2018, cash and cash equivalents were $30.2 million, total long-term debt was $821.6 million comprised entirely of our term loan facility (excluding debt issuance costs), and total net debt was $791.4 million defined as total long-term debt less cash and cash equivalents, representing 3.6x net total leverage. During the quarter, the Company voluntarily prepaid an aggregate of $25.0 million in principal amount of its term loans.
- *Free Cash Flow* - Free Cash Flow in the first quarter was $18.0 million, after the impact of $7.8 million of cash outflows for public cloud resale and managed services investments.
- *September 2018 Share Repurchase* - On September 13, 2018, the Company completed the repurchase of 10,750,000 of its shares from funds affiliated with Apollo Global Management, LLC (the "Share Repurchase") for approximately $160 million, funded with the net proceeds of incremental term loans. The Share Repurchase is expected to deliver EPS accretion of 7% for the fiscal year.
- *Backlog* - As of September 30, 2018, we had firm, executed backlog of $639 million, up 20% over the prior year, driven by strong growth in both product and service backlog. Sequentially, our firm, executed backlog increased 9% over Q4 of fiscal 2018.
- *Dividend* - On September 6, 2018, the Company declared a quarterly cash dividend of $0.04 per share of Common Stock. The dividend was paid on October 5, 2018 to stockholders of record as of September 26, 2018. Dividends paid for the quarter to stockholders of record totaled $3.2 million.

Quarterly Cash Dividend

Presidio announced today that its Board of Directors declared a quarterly cash dividend of $0.04 per share to stockholders. The dividend will be paid on January 7, 2019 to stockholders of record as of the close of business on December 26, 2018. The declaration and payment of future dividends will continue to be subject to the discretion and approval of the Company's Board of Directors and will be dependent upon, among other things, the Company's financial position, results of operations and cash flow.

Business Outlook

We reaffirm our outlook for the fiscal year ending June 30, 2019, which is as follows:

- Total Revenue: $2,850 million to $2,900 million representing Total Revenue growth of 3% to 5%;
- Adjusted EBITDA margin: approximately 8%;
- Pro Forma Diluted EPS: growth in the mid to high teens including the impact of the share repurchase;
- Free Cash Flow is expected to average $30 million per quarter before public cloud resale and managed services investments, as well as any tuck-in acquisitions funded through free cash flow; and
- Total net leverage is expected to be in the low-3x range at the end of fiscal 2019, excluding any strategic acquisitions.

During the first quarter, we made $7.8 million of public cloud and managed service investments due to strong client demand for multi-year public cloud contracts.

The above forward-looking statements reflect Presidio's expectations as of today's date. Given the number of risk factors, uncertainties and assumptions discussed below, actual results may differ materially. Presidio does not intend to update its forward-looking statements until its next quarterly results announcement, other than in publicly available statements. Refer to the Safe Harbor Statement below for additional information regarding forward-looking statements.

About Non-GAAP and Pro Forma Financial Measures

Our management regularly monitors certain financial measures to track the progress of our business against internal goals and targets. In addition to financial information presented in accordance with GAAP, management uses Adjusted EBITDA, Adjusted Net Income, Pro Forma Adjusted Net Income, Pro Forma Diluted EPS and Free Cash Flow (collectively, "non-GAAP measures", as further described below) in its evaluation of past performance and prospects for the future. These non-GAAP measures should be considered in addition to, not as a substitute for, or superior to, financial measures calculated in accordance with GAAP. They are not measurements of our financial performance under GAAP and should not be considered as alternatives to net income or revenue, as applicable, or any other performance measures derived in accordance with GAAP and may not be comparable to other similarly titled measures of other businesses. These non-GAAP measures have limitations as analytical tools and you should not consider them in isolation or as a substitute for analysis of our operating results as reported under GAAP and they include adjustments for items that may occur in future periods. However, we believe these adjustments are appropriate because the amounts recognized can vary significantly from period to period, do not directly relate to the ongoing operations of our business and complicate comparisons of our internal operating results and operating results of other peer companies over time.

We also adjust certain historical data on a pro forma basis following certain significant transactions. Specifically, we have provided a calculation of Pro Forma Adjusted Net Income to adjust our reported results for the three months ended September 30, 2017 for:

- the net after-tax interest savings associated with the borrowing of incremental term loans used for the redemption of the senior notes in January 2018, as if the transaction occurred on July 1, 2017; and
- lower after-tax interest expense associated with the term loan repricing completed in January 2018 as if it occurred on July 1, 2017.

We have also provided a calculation of Pro Forma Adjusted Net Income to adjust our reported results for the three months ended September 30, 2018 for higher after-tax interest expense associated with the incremental term loans used to fund the Share Repurchase that occurred in September 2018, as if the transaction occurred on July 1, 2018.

Pro Forma Adjusted Net Income is for illustrative and informational purposes and is not intended to represent or be indicative of what our financial condition or results of operations would have been had the transactions occurred on the dates indicated. Pro Forma Adjusted Net Income should not be considered representative of our future financial condition or results of operations.
